DEWEY'S TART REPLY.

The Admiral and Senator Carmack
Lock Horns Over Aguinaldo.

THE LATTER'S OBJECT WAS "LOOT,"

Declares the Hero of the Battle of
Manilla Bay, When He Was
Pressed For an Answer
to a Question.

Washington, June 28.—Admiral Dewey continued his testimony before the senate committee on the Philippines. Replying to questions put by Senator Patterson, he said he had begun negotiations with the governor general of the Philippines, General Jaudenez, for the surrender of the city and the negotiations were conducted through the Belgian consul, who after the death of the British consul had been very courteous in acting as a go-between. It was a diplomatic negotiation, no letters being written. Replying to a question as to whether the agreement to surrender had been made public at the time of the attack upon Manila, Admiral Dewey said he thought not. "There are," he said, "lots of things which are not communicated to the public."

Mr. Patterson sought to secure from Admiral Dewey an admission that Aguinaldo had issued a proclamation of independence to the Filipinos about the time of the sinking of the Spanish squadron, but the admiral said he did not remember it, although it was possible that he might have done so. Mr. Patterson then read the paper forwarded by Consul General Pratt May 20, 1898, in which the Philippine leader said that Providence had opened the way for independence to the Filipino and spoke of the Americans as their liberator. The admiral said, however, that he did not remember to have seen the paper. He had, he said, given Aguinaldo a printing press and probably he used this press for getting out his proclamation.

In reply to a question the admiral said that Consul Williams who had been stationed at Manila was an honest man, although perhaps quite enthusiastic. The admiral did not, however, remember to have promised Aguinaldo his "cordial co-operation," as the consul had reported. For the purpose of making inquiry concerning some of the representations of Consul General Wildman, located at Hongkong, Mr. Patterson asked concerning that gentleman's character. The admiral apparently hesitated to reply, but then said: "He's dead—I'd rather not say. He was the United States consul general."

He added that he would prefer not to reply to further questions, but when Mr. Patterson persisted, he added: "He was a very able man—an able consul."

Speaking of Aguinaldo's loyalty, the admiral said he had become suspicious of that leader before the receipt of his proclamation of July 15. He said "I began to suspect that he was not loyal to us, when he demurred to moving out of Cavite when our troops arrived."

"You mean that they were thinking more of their own independence than of us?"

"Yes." Admiral Dewey also testified concerning the arms sent to Manila by Aguinaldo, and Senator Dietrich asked the admiral if "He did not believe that the arms were purchased with the money previously paid by Spain to secure peace and that it was his intention to use the money to foment another insurrection for the purpose of gain?"

The admiral's reply was "Exactly so."

Admiral Dewey said he had forwarded the proclamations of Aguinaldo to Washington without reading them. The days and nights were not long enough for my work at that time, said the admiral. "Since you have asked my opinion," said he, in answer to a question, "I will say I believe Aguinaldo was there for gain, for loot, for money and that independence never entered his head."

Senator Carmack asked him why he furnished such a man arms and helped to organize his army to which the admiral replied that "all was fair in war" and there were no American troops in the island to oppose the Spaniards. When he assisted Aguinaldo he did not call him a "robber and plunderer," but the "insurgent leader." I say I think he was there for loot and money," he continued. "Do you think he was here for anything else?" he asked, turning to Senator Carmack. "I do," responded the senator. "Well, I swear I don't," said the ad-

miral emphatically.

Answering several questions the admiral said he thought he knew Aguinaldo better than General Otis, General Bell, or any other officer, as he saw more of him. He had not been in Manila 48 hours before I saw he was there for the loot. He was then taking everything he could lay his hands on from everybody, and I expect he got the lion's share."

The inquiry ended rather abruptly at 12 o'clock Senator Carmack asked: "You don't know of a single dishonest act on the part of Aguinaldo, yet you regard him as a thief?"

Admiral Dewey rose and said: "I think I shan't answer that question," and taking his hat and bowing, left the room.

PRESIDENT ROOSEVELT

Returns to His Duties at Washington
In Fine Humor.

Washington, June 28.—President Roosevelt and party arrived in Washington on a special train. The president's special train traveled as the second section of the federal express. There were no noteworthy incidents during the morning's journey. The president was in fine humor. He walked briskly down the station platform on reaching Washington and almost had reached the gates when he recollected that he had not bade adieu to the engine crew, his invariable practice on returning from a trip. Quickly retracing his steps, he reached the side of the big engine that had pulled him from Philadelphia and vigorously shook the hands of the engineer and fireman, and another trainman who had climbed into the cab to share the honors. As he turned again toward the gates, a man roughly brushed against him, seized his hand and exclaimed that he was from Long Island. "Glad to see you," said the president, and he wrenched his hand away and regained Secretary Cortelyou. The White House carriages were in waiting and the president drove directly to his new temporary official quarters.

Rathbone's Wish.

Washington, June 28.—Major Estes G. Rathbone, former director general of posts of Cuba, requests the press to say for him that since he has been in this country various newspaper interviews have contained statements seeming to come from him which do him an injustice. Some of them are errors in fact, and others are faulty inferences drawn from known conditions. He regards these misrepresentations as having been inadvertently made, but they nevertheless do him an injustice. His purpose at this time is to have an investigation by congress which will disclose the facts regarding his conduct in Cuba and not revenge on any person or persons who may have injured him.

Saw a Boston Lady.

London, June 28.—Prince Henry of Prussia leaves London for Germany. He and the Princess received among other visitors Mrs. Montgomery Sears. The prince spoke to her of his pleasant recollections of his visit to Boston. Among the Americans outside the members of the special embassy who have been received by Prince and Princess Henry of Prussia are Admiral Charles O'Neil, Miss Roosevelt and Mrs. W. S. Cowles, wife of the former naval attaché of the United States embassy at London.

Another Steel Corporation.

Trenton, N. J., June 28.—A certificate of incorporation was filed here for the American Steel Foundries, capital \$40,000,000, of which \$20,000,000 is preferred, drawing six per cent cumulative dividends. The concern is authorized to manufacture iron, steel and manganese and other materials and all articles partly consisting of the same. Incorporators, Howard F. Wood, K. K. McLaren and Donald H. Mann, all of Jersey City.

Editor Grossman Arrested.

New York, June 28.—Rudolph Grossman was arrested here by detectives of New York and Paterson who had been following him and who held a warrant charging him with riot. He was taken to the toms police court and remanded to the toms without bail for examination next Sunday morning. The prisoner said he was the editor of the Austro-Hungarian Gazette.

New London, Conn., June 28.—William James, Jr., of Cambridge, was elected captain of Harvard Varsity crew. He rowed this year and is a 1903 man. He is a son of Professor William James, psychologist of Harvard.

Passed the House.

Washington, June 28.—At the night session the house passed the Philippine civil government bill by a vote of 141 to 97. It differs in many respects from the senate bill.

LIVELY AS A CRICKET.

Official Bulletins Show Great Improvement in King's Condition.

HIS WOUND MORE COMFORTABLE.

Owing to Disappointment Over the Postponement of the Coronation, Some Persons Have Caused Disturbances.

London, June 28.—An authoritative statement contained in press dispatches that the check in King Edward's progress toward recovery, which was recorded in a former official bulletin, was merely temporary in its character, receives gratifying confirmation in the announcement by the attending physicians, which is as follows:

"His majesty had a fair night and has some natural sleep. His appetite is improving and his wound much more comfortable. On the whole the king's condition is attended with less anxiety."

The announcement of a more comfortable state of the king's wound and his having secured natural sleep is followed by an indication of increasing assurance in the minds of those responsible for the official reports. As the time approached for the posting of the morning bulletin the crowd about the palace the king increased appreciably.

When the better tenor of the news contained by the slip of paper attached to the balize-covered board became known, something like a cheer broke forth from the assembled people.

Prince Henry of Prussia and other foreign representatives were among the earlier callers at the palace.

Throughout the afternoon only small crowds gathered about Buckingham palace. The 2 p. m. bulletin created the greatest satisfaction.

Subsequently a member of the government said to a reporter: "Really everything is going on wonderfully well and we all now think the king will recover, though, of course, we are afraid of being premature or unduly optimistic. The king is proving himself a gallant chap."

"A good deal of ill-feeling and misdirected criticism seems to have been caused by the omission of the temperature from the bulletins. I understand the doctors avoided mention of it for the purpose of preventing what they believed would be an avalanche of faulty deductions from the press and alleged experts."

The latest bulletins created the most favorable impression in parliamentary circles. Many of the medical experts now believe that all danger of any septic process has passed and that so far as can be seen, the crisis may be regarded as at an end.

Electric fans are being utilized to keep the king's apartment at a suitable temperature, the heat in London at present being oppressive.

Queen Alexandra continues cheerful and is in and out of the sick room at frequent intervals. The Prince of Wales again spent a short time in his father's bedroom.

Rioting in England.

London, June 28.—That many persons unreasonably felt aggrieved by the postponement of the local festivities is shown by the fact that disturbances have occurred in different parts of England. A crowd gathered in the streets of Watford and windows in the house of the chairman of the council were smashed, together with those of other members of the town coronation committee. Mounted police charged the crowd. Considerable rioting was indulged in at Dunstable. A protest meeting was held and the crowd afterward proceeded to the residences of the mayor and the rector, where amid much hooting windows were smashed. A move was then made to the Chiltern hills, where a great coronation bonfire was lighted, contrary to orders.

Mobs Are Angry.

London, June 28.—The provincial "hoboes" in several minor towns who were deprived of their expected feasts and the opportunity to "baffick" indulged in angry demonstrations against the local authorities who had postponed public dinners and festivities. Smashing windows was the favorite form of protests. In some cases the "hooligans" lit the bonfire which had been prepared for the celebration of the coronation. The most serious disturbances occurred at Watford, 15 miles from London. During the early hours a mob overpowered the police, wrecked several shops and set fire to

a store owned by the chairman of the town council. A number of special constables were sworn in and the disturbance was quelled.

Official Bulletins.

London, June 28.—The following bulletin was posted at Buckingham palace: "His majesty passed a comfortable morning. All his symptoms are so far satisfactory. His temperature remains normal. No other than important fluctuations in his majesty's temperature will be recorded in the bulletins issued."

London, June 28.—It is said that after the issue of the bulletin, Lord Marcus Beresford asked Lord Lister how the king was progressing and that Lord Lister replied: "His majesty is practically out of danger."

SCIENTISTS MEET.

Technical Subjects Discussed by College Professors at Pittsburg.

Pittsburg, June 28.—The annual convention of the American Association for the Advancement of Science began its sessions at Carnegie institute. Most of the delegates have arrived and upwards of 1,000 visitors are here, representing the affiliated organizations of the national society.

The convention will adjourn on July 3, but the delegates will remain over the Fourth to take part in the reception to President Roosevelt on that day. After the usual address of welcome the session was devoted to the reports of officers and the reading of the following technical papers: "The Efficiency Factor in Engineering Education," Robert Fletcher, Dartmouth college; "The Needs of Engineering Colleges," H. Clifford Ricker, University of Illinois; "The Value of Non-Resident Lectures on Engineering Subjects," William D. Pence, Purdue university; "Methods of Grading Students in Engineering Colleges," Charles P. Matthews, Purdue university; "The Sub-Division of the Field of Chemical Engineering Education," Edward Orton, Jr., Ohio State university; "Electro Chemistry as an Engineering Course," Charles F. Burgess, University of Wisconsin.

Conferees Appointed.

Washington, June 28.—The house disagreed to the senate amendments to the general deficiency appropriation bill and sent the bill to conference. Mr. Alexander (N. Y.) asked if a separate vote would be allowed on the Buffalo exposition amendment. Mr. Cannon replied that he had no power to prevent a vote and if the senate was in earnest in insisting on the exposition amendments he had no doubt that the house would be called upon to act, as he frankly stated that personally he would oppose the acceptance of those amendments. Messrs. Cannon (Ills.), Barney (Wis.), and Livingston (Ga.), were appointed conferees.

Arrived Safely.

London, June 28.—Advices received here from Addisbaba, capital of Abyssinia, announce the safe arrival there of Fitzhugh Whitehouse of Newport, R. I., and Lord Hindlip, who started from England Feb 1 on an exploring trip to the Upper Nile. Both of the travelers were well and had thus far enjoyed a successful trip. They were cordially welcomed by King Menelik. The explorers were to continue their travels round Lake Rudolf and homeward by way of Massowah, where they expect to arrive in September.

Signed by Loubet.

Paris, June 28.—At a cabinet meeting held at the Elysee palace President Loubet signed a decree closing the religious institutions which have not complied with the provisions of the laws of association. One hundred and thirty establishments are involved. Instructions on the subject were sent to the various prefectures.

Death of a Naval Constructor.

New York, June 28.—William Lines Mintony, naval constructor, United States navy, retired, who supervised the construction of the ill-fated battleship Maine, at the Brooklyn navy yard, is dead at his home in Brooklyn. He was born in New York city 73 years ago.

Pope's Representative Succeeds.

Rome, June 28.—Mgr. Sans de Sampaer, the member of the pope's household who was sent to Mexico three months ago with instructions to endeavor to re-establish diplomatic relations between that republic and the vatican, reports that he has been successful in his mission.

Melvin L. Youngs.

Milwaukee, June 28.—Melvin L. Youngs, grand lecturer of the Masonic grand lodge of Wisconsin, died after a prolonged illness, aged 76 years. Mr. Youngs was said to be the nestor of Masonic grand lodge lecturers in the country, and he was looked upon as an authority on Masonic matters in others states as well as in Wisconsin.

FIRE BOSS ASSAULTED

By a Party of Striking Miners, Armed With Clubs and Stones.

SIX OF THEM ARRESTED BY POLICE.

The Prisoners Are Charged With Assault and Battery and Causing a Riot—Disturbances at Stanton Colliery.

Wilkesbarre, Pa., June 28.—There was a disturbance in the vicinity of the Stanton colliery of the Lehigh and Wilkesbarre Coal company in South Wilkesbarre, which resulted in the arrest of six men on the charge of assault and battery and causing a riot. Fifteen men armed with clubs and stones set upon a fire boss and an assistant mine foreman as they were about to enter the colliery. As soon as the crowd of men began attacking the two workmen, the coal and iron police came to their rescue. Two of the 15 were arrested and the others escaped, but an hour later four of them were taken into custody by the city police. The two workmen escaped without serious injury. There has been considerable trouble at the Stanton colliery since the strike began, a boy having been shot in that vicinity several weeks ago.

Streets of London Deserted.

London, June 28.—What was to have gone down in history as procession day, when it was expected there would be the greatest crush ever witnessed in the streets of London, finds the city practically deserted. The bank holiday paralyzed business. The masses apparently surfeited with their eventless wanderings in the streets either cleared out to the country, tempted by the perfect weather, or else stayed at home. Certainly the main thoroughfares could not have been more deserted on any Sunday of the year. Big hotels, however, were each an oasis of activity among the otherwise general stagnation. Many Americans are preparing to start for the continent and others have already gone there or to the country, while numbers took advantage of the fine day to visit the great fleet assembled off Spithead. Sir Thomas Lipton is entertaining a distinguished party on board his steam yacht Erin.

Lieutenant Governor Appointed.

Columbus, O., June 28.—Governor Nash announced the appointment of Harry L. Gordon of Cincinnati as lieutenant governor of Ohio, to fill the unexpired term of Carl Nippert, who resigned last May. The appointment was made almost immediately upon the announcement of the supreme court's decision that the governor must fill the vacancy caused by the retirement of the former lieutenant governor. Mr. Gordon is a prominent attorney of Cincinnati and has always taken an active interest in politics, being a member of a number of Republican clubs. He was born in Metamora, Ind., on April 17, 1869. He resided for a time in Kansas, where he was elected a state senator.

Health of Troops.

Washington, June 28.—Surgeon General Forwood received a report from Lieutenant Colonel C. L. Heismann, chief surgeon, division of the Philippines, in regard to the health of the troops in the archipelago for the month ended May 15 last. The percentage of sick is at the lowest figure yet reached in the division, 6.1 per cent as compared with 6.24 per cent the previous month. A large increase is reported in the number of deaths, both from injuries and from diseases. The increase in the former class was due largely to the battle at Bayan, Mindanano, and in the latter class to cholera.

Emigration to Siberia.

S. Peersburg, June 28.—Official figures showing the emigration to Siberia and the return of former emigrants to European Russia for the year 1901, are published. The total movement to Siberia is given roundly as 128,700, comprising 94,700 emigrants, 25,000 pioneers of intending emigrants and 9,000 peasants seeking work. There returned 55,000 persons, including 31,000 emigrants, 18,000 pioneers and 6,000 workmen. The return movement is stronger than it was in 1900.

Larz Anderson's Death.

Ridgefield, Conn., June 28.—Larz Anderson, 57, a prominent resident of Cincinnati and an uncle of Larz Anderson, yachtman and society man of Washington, D. C., suicided at the summer home of his brother, Dr. J. L. Anderson. He is said to have suffered recently from melancholia.

The failure of the Auditor of the War Department to certify the allowance of Kentucky's war claim to the Senate, has postponed the payment of the claim until December. It will be a nice pickup for the State when it does come. Why not use it in erecting a new State Capitol?

STATE'S BONDED DEBT.

It May be Wiped Out With the War Claim Fund To be Paid by National Government.

FRANKFORT, Ky., June 26.—The \$1,346,000 interest on the money loaned by Kentucky to the national Government during the Civil war, which is expected to be turned next winter into the State Treasury by the Government, will be at the disposal of the Sinking Fund Commission, composed of the Governor, Auditor, Secretary of State, Treasurer and Attorney General. What is to be done with this large sum of money, which will more than pay off the debt of the State, is causing much discussion about the Capital these days.

Those who have been striving for the erection of modern buildings here think that the war debt interest should be held to await the next session of the General Assembly and then appropriated for this purpose. These enthusiasts feel that they missed a good thing at the late session when they did not adopt the suggestion of Gen. Murray and others to make the Appropriation bill read "out of money collected on the war claim from the national Government," and not "out of any money in the Treasury not otherwise appropriated." It might have been easy to have gotten such a bill through, as very few except Gov. Beckham, Adj. Gen. Murray and Capt. Calhoun believed that success would attend their efforts. Those favoring the erection of a new capital were unwilling to accept anything so indefinite.

Some here think that the money properly goes into the General Revenue Fund of the Treasury to pull this fund out of the hole and pay current expenses.

Others, and these seem to be in the majority, favor an effort to pay off the bonded indebtedness of the State. Gov. Beckham is said to be in favor of using the money for this purpose, if it is possible to do so, and it is also said that a majority of the commission will favor it. The bonded debt is \$1,000,000, one-half of which is payable in 1905 and the balance in 1907. If these bonds can be bought at anything like a reasonable figure the money is almost certain to be used for this purpose.

Of the 297 State banks operating in Kentucky 149 will receive a rebate this year from the State under the act of the late Legislature to reimburse these institutions for excess of taxes paid under the Hewitt law prior to 1896. The other 148 institutions were organized after the Hewitt law became operative and will this year pay taxes as heretofore. Auditor Coulter this week sent out notices to these latter to report and pay.

The Enquirer's picture Friday of Larz Anderson, who committed suicide this week, is an exact likeness of General Robert Anderson, of Fort Sumpter fame, as remembered by a correspondent of the BULLETIN who saw the General in 1861, shortly after the affair in Charleston harbor.

MADRAS.

The great ten-cent fabric. More yards of it are sold than all similar fabrics at the price combined. It is made from combed Maco Cotton and comes in choice and strikingly effective patterns.

DOTTED SWISS.

That this old-time favorite has lost none of its former prestige is abundantly indicated by the constant demand for it. In the estimation of countless women no summer fabric of later creation can supplant Dotted Swiss. 15c., 25c. a yard.

DIMITIES.

We think we can safely claim to hold the field with our line of 15c. Dimities, plain, fancy and bordered. They are equal to the imported goods and cost half as much.

MUSICALE.

Pupils of Miss Anna T. Cooke, of Germantown, Entertain Relatives and Friends—The Program.

"Rose Bower," the handsome home of Miss Anna T. Cooke, of Germantown, was the scene of a charming entertainment Thursday evening, when her gifted young music pupils delighted their relatives and friends with vocal and instrumental selections. The whole program gave evidence of the promising ability of the pupils and the skill and culture of the accomplished teacher.

A capacious porch was decorated into a realm of enchantment with vines, lights and flowers, and as sweet music and young voices rose, the prosy auditor imagined himself in fairy land, and as the last note of this pleasing program found an echo in every heart, by special request Prof. Caldwell charmed his listeners with original song and recitation, when by unanimous wish Miss Anna Cooke rendered some classical selections, the delightful recital closed, and fond parent and admiring friends left with compliments galore on the success of the evening. Following was the program:

MERZ BROS

Mr. Henry Greathouse, a native of this county, died recently at his home in Texas. He went from here to California in '49, and thence to Texas, where he grew wealthy in the banking business. He was the last of the family excepting Mrs. Belle Greathouse Lawrence, now living in Arkansas. He was aged about seventy-five years, and was a cousin of the late Mrs. Mary F. Alexander, who visited here not long since from Hopkinsville.

MAYSVILLIANS AT MT. OLIVET.

Pleasant Things Said of Their Recent Visit to Robertson's Thrifty Capital.

[Mt. Olivet Advance.]

The business relations existing between Mt. Olivet and Maysville have been of the most pleasant character. There has, however, never been very close social intimacy between the two places. It was, therefore, particularly pleasing, when, on Sunday last, a hack load of Maysville's representative citizens drove out here to attend a meeting of the Robertson County Sunday School Association.

They were M. F. Marsh, of the DAILY EVENING BULLETIN, A. A. Edmonds, of the Public Ledger, Prof. E. Swift, Superintendent of the City Schools, John Duley of the State National Bank, and H. C. Curran, attorney-at-law. There was a goodly attendance upon the meeting, which was held at the Christian Church, and those absenting themselves missed a veritable "feast of reason and flow of soul."

The program of the morning session had been filled by home talent, yet had been of a very enjoyable character. To give even a synopsis of the very delightful little talks of the visitors at the afternoon session would require more space than we have to spare, and to discriminate by mentioning even a part of them would be altogether unfair, for all were excellent. First, there was Prof. Swift's, which showed depth of scholarship, and very extensive knowledge of the subject discussed; Mr. Curran's, full of fire and enthusiasm and which fairly carried the audience by storm; Mr. Marsh's, logical, forceful, convincing; and Mr. Duley's, who, perhaps, by reason of his holding the Presidency of the Mason County Sunday School Association was, if possible, the most enjoyable of the four. He is a delightful speaker, altogether combining all the traits of the graceful and polished orator. Mr. Edmonds did not speak, but his very presence lent inspiration to the occasion. We shall be very glad if the quintette may pay our town another such visit in the near future.

[Mt. Olivet Tribune Democrat.]

Messrs. John Duley, H. C. Curran, M. F. Marsh and Prof. Swift, of Maysville, made excellent addresses upon the topics that bore distinctly upon Sunday School work. Mr. Duley was very fortunate in enlisting the sympathy of his hearers at the beginning, and he made them his own to the close of his address upon "The Beauty of the Work," to those enlisted in it—thrice blessing those who gave and those who received its benefits. Mr. Curran was earnest, sincere and eloquent in his address, which was highly appreciated. He also gave the appeal for the contribution and received an excellent response. He is gifted as a speaker. Prof. Swift made an excellent exposition of the work, showed how the secular and Sunday school work fitted link by link into the golden chain of character building and good citizenship. Mr. Marsh was a philosophical speaker and impressed the listeners as a gentleman of courtly, Christian character, who was interested in the building of the temple of the Lord—that our daughters might be as polished corners of it and

A GOOD RULE to Follow

In estimating the amount of paint needed for any given surface is to divide the number of square feet by 200. The result will be the number of liquid gallons needed for two coats. If an artistic job is wanted, go over any spots, particularly if they are greasy, with a saltpeter wash before the color is put on; they will then take the paint. It is worth a good deal to be certain you have used the best material possible. You can be sure of this if you use the United States Paint Company's goods. We have it in all shades, ready for use. There is nothing better made.

Don't Fret Your Life Away "shooing" flies and "chasing" other insects from the house when we offer you protection so cheaply. Adjustable Window Screens and Doors, with all necessary hardware, for much less money than you can afford to have them made elsewhere.

EVER HAVE IT?

If You Have, the Statement of This Maysville Man Will Interest You.

Ever have a "low down" pain in the back?

In the "small" right over the hips?

That's the home of backache.

It's caused by sick kidneys.

That's why Doan's Kidney Pills will cure it.

Maysville people endorse this—read a case of it:

Mr. John H. Fansler, of 209 East Fourth street, says: "It is most pleasing to learn of a remedy which does all that is claimed for it when there are so many whose merits exist only on paper. I know that Doan's Kidney Pills are a valuable and reliable kidney remedy, and this fact is substantiated by ample proof by their personal use. I procured the remedy at J. James Wood & Son's drug store, corner of West Second and Market streets."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no substitute.

Fourth of July Rates Via the C. and O.

On account of the Fourth of July, the C. and O. will sell round-trip tickets at rate of one fare, Maysville to all stations, Gauley, W. Va., to Cincinnati, inclusive. From Maysville to stations east of Gauley one fare to Gauley plus one and one-third fare Gauley to destination, except no tickets will be sold to stations on the Washington division. Dates of sale July 3rd and 4th; return limit July 7th.

Excursion tickets will also be sold to certain points on the Big Four, B. and O. S. W., C. H. and D., C. I. and L., Ill. Cent., L. and N., L. S. and C. N. O. and T. P. roads at greatly reduced rates. The Louisville rate will be \$5.25.

George Rieman, pitcher of Maysville's famous ball team in 1896, has compromised his suit against the city of Covington for damages for injuries received by accidentally falling on the street.

Additional Train, New and Improved Through Car Service, on Chesapeake and Ohio Railway.

[In Effect Sunday, June 29th.]

The well-known F. F. V. Limited, from western points to Washington, Baltimore, Philadelphia and New York, heretofore arriving New York at 1 p. m., has been quickened in time so that under the new schedule it arrives there 11 a. m., making the run between Cincinnati and New York in twenty-two hours. An entire new equipment has been built by the Pullman Company for this train, and it is thoroughly up-to-date in every particular.

Westbound, a new through fast train, known as the Washington, St. Louis and Chicago Special, leaves Washington 6:30 p. m. (New York at 1 p. m.) arriving Cincinnati 11:50 a. m.; Indianapolis 3:25 p. m.; St. Louis 9:45 p. m. and Chicago 8:40 p. m. the same evening.

Eastbound, an additional local express has been put on, carrying Pullman Sleepers through from Cincinnati to Washington, Richmond and Old Point Comfort, leaving Cincinnati 7:45 a. m. and reaching the mountain resort stations during the early evening, making a comfortable train for these and principal local stations.

Detailed information can be had by applying at local ticket offices.

Rev. Robert H. Tolle will preach Sunday at the Dover Baptist Church.

A puny child is always an anxiety to the parents. There seems generally no reason why the little one should be weak when it is so well fed. But the fact is that it does not matter how much food the child takes if the stomach cannot extract the nourishment from it. No benefit can be derived from just eating. That is the condition of many a sickly child. The stomach and organs of digestion and nutrition are not doing their work, and the body is really starving. It is little use to give fish foods or emulsions in such a case, because these also have to be digested; they may lighten the stomach's labor but they don't strengthen it. Strength is what the stomach needs. Dr. Pierce's Golden Medical Discovery strengthens the stomach, nourishes the nerves and increases the action of the blood making glands. It is superior to every other preparation for children's use, on account of its body building qualities, and also because it is pleasant to the taste and contains no alcohol, whiskey or other intoxicant. Dr. Pierce's Pleasant Pellets are a valuable aid when the bowels are irregular. They are small. Children take them readily.
